

## The Leaking Truth

### 28th Post - Maybe we Found Our Way Through ALL of THIS!

July 13, 2024

It's been the longest journey through everything up to this point and it's quite the story when you hear it all explained out and right now, I've made a connection that understands me and it's amazing the law of attraction is actually working here! I'm quite the positive outgoing person and I have positive intent in me for all that I do and those I interact with; the law of attraction obviously sees this quality in me, and I do believe that everything happens for a reason to a certain degree. They tell you surround yourself with positive people in your life and good things will happen because of it. Surprisingly it's been positive music in my life interestingly enough I've been playing and surrounding myself with as I spend a lot of time alone mostly up in my room (that sounds bad but it's not what it 'could be' if that makes any sense at all haha) I've mentioned 'the chatter' here on my blog many times and now it's seeming as if I'm a bridge between the cosmos and a very healthy text dialogue happening right now. I've connected with people on Reddit and an old friend on Facebook and I'm trying to make sense of all of it because I DO HEAR the chatter objecting to what I am doing here. Middle finger to the chatter right now, I'm going to figure all this out and I will connect, it's just a matter of time now... There's so much I could dive into right now with the user on Reddit I've been talking too, he's taught me so much and I can't thank him enough for his time and his words to me, but he's helped me to understand our connection to the cosmos bluntly put and it's a LOT to take in but it's really helping me out here and now that I have reconnected with an old friend from Facebook we have much to discuss in the coming days, I'm looking forward to these conversations because somehow someway like the chatter keeps stating "something is going to happen..." and yes, yes, yes something is about to happen! What EXACTLY is about to happen I can't say for sure, but I have faith and trust the process. The biggest thing I've been told is staying present in the moment is critical to all this working out and I'm guessing I am present and that's part of why I could be a target at the moment because I am present, but I feel there's an element that's so easy I'm blindly missing here, and I am getting closer and closer to figuring it out. The truth always comes out, I'm stick to that motto as I keep moving forward with

everything I am doing here because the law of attraction is at work here and is working in its mysterious ways! There's no denying making progress here! I am patient. If the law of attraction needs time, it will figure out the best way to work for me, so be it. Honesty is my weapon of choice here, the more honesty that I get out the better off things are going to be! With whatever is 'up there' I have a track record with 100% honesty and somehow that means something and someday it's going to play its part here when I am asked "Did I do everything I possibly could?" and the answer is a resounding "YES!".

I may come back to this post and add more later when the time is right. Thank you for reading!
